

OLED

Weight comparison

Original 38.0g

OLED 38.3g

Original

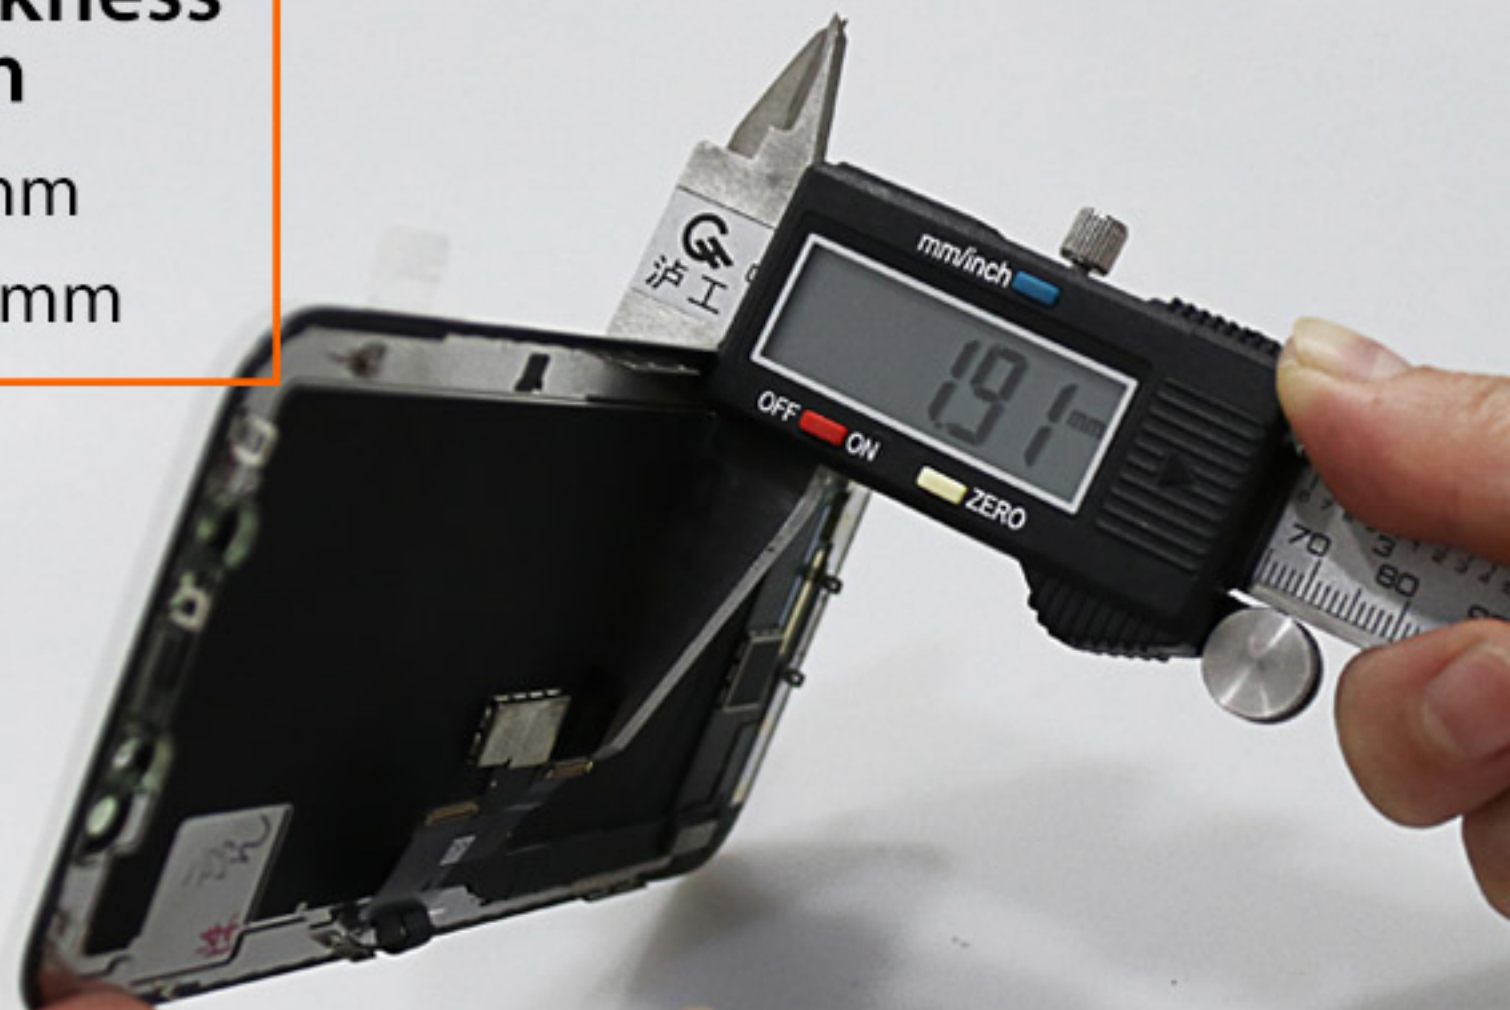

OLED

Original

**Screen thickness  
comparison**

Original 1.91mm

OLED 1.95mm

OLED no gap, perfect installation with no joint, like the original one.

## OLED

OLED with anti-fingerprints oil on top, water form with tiny droplets.

## General

General screen without anti-fingerprints oil, water spreading quickly.

OLED with efficient self cleaning performance to reduce fingerprint and oily stain; Efficient antifouling, amphiphobicity and durability; low coefficient friction, good touch feeling.

OLED

Original

## Screen display comparison

OLED with uniform luminance, high color saturation, without light leak as the original one.

OLED

Original

With included full-view polarized effect, no visual problem, same with the original display!
